

Capitol Connection Q&A for Contractors
By Shauna Krause, President, Capitol Services, Inc.

Sometimes ‘jumping into the pool’ isn’t a straight shot! Another contractor is tired of being a ‘zombie’ working with an ‘expired’ license, and I will be helping aspiring contractors answer questions about getting a license as a panelist in an upcoming webinar...

Q: I previously had a “C-33” (Painting) Contractor’s license which expired in 2009. I let it go because for the past 20 years I have been doing outdoor living spaces. I install the outdoor kitchen area, the BBQ/Smoker area, the deck/flooring, and then I pay tilers/masons to do the countertops and any stonework involved, etc. With summer coming up, I’ve decided I need to get my General Contractor’s (“B”) license to do all the work myself and more importantly, to not get “dinged” for working without a license since almost every job I do and have done is over \$500.00. What are the requirements for a General License, and since I was previously licensed, will I be able to waive the exams?

A: In order to qualify for a General Building license, you would be required to show at least four years of fulltime experience doing Building work, specifically framing, *and* at least two unrelated trades. You would not be able to Waive the exams based on your previous license or experience gained from what you described.

Also, the work you described falls more under a “C-27” (Landscaping) license rather than a General license. The “C-27” also requires a Trade exam, and because your previous license has been *expired for over five years*, you will also need to take the Law exam again.

Q: I am looking into purchasing a Pool business. What are my options for obtaining a “C-53” (Pool Contractor) license if I don’t have any experience? I am looking to run the business, keeping all the existing employees on board to run the work.

A: You would need to either hire someone who is currently a “C-53” license holder to Qualify your license, or you would need to utilize one of the existing employees who can show they have been doing the work for over four years and take the exams, *or* hire someone new who isn’t a current license holder, but who could document the years of experience and take the exams.

Please share the upcoming webinar sponsored by CSLB, the City of Sacramento and major industry players on April 14th beginning at 5 pm. The webinar is focused on how women and minorities can become licensed contractors. It’s a *free virtual event* and I will be one of the panelists answering questions! This is the link for more info, so please share it with those likely to benefit looking for new opportunity, especially those impacted by job loss due to the pandemic.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827. Search past column at www.cutredtape.com.

The Nevada County Contractors' Association

invites you to its

28th Annual Golf Tournament

Luau on the Links

Friday, May 21st, 2021

at the Alta Sierra Golf Course

Sponsored By

Weyerhaeuser

Fee: \$150 per player

Players must wear proper golf attire, but that doesn't mean you can't wear your best Hawaiian shirt, bermuda shorts, and straw hat – in fact, we encourage it! There will be a competition for best Hawaiian shirt!

Check-In begins at 9:30am. Shotgun start at 11:00am

Barbecue Dinner, Raffle Winner Announcements, and Awards to Follow

Join us for the 19th Hole(BBQ) Tickets Available for \$20

Sponsorships Available*

Booth Hole Sponsor – \$500

Place a booth on a hole.

Hand out swag, decorate your booth, dress up, it's up to you!

Tee-Keel Box Sponsor – \$200

Sign on a tee box. Great visibility to all of the golfers!

You won't want to miss the NCCA Tiki Bar Booth!

There WILL be a booth decorating competition!

Golfer & Sponsor Registration

I want to be a: ☐ Booth Hole Sponsor ☐ Tee Box Sponsor ☐ 19th Hole Ticket #___

Golfer 1: _____ Golfer 2: _____

Golfer 3: _____ Golfer 4: _____

Company: _____ Contact: _____

EPA Lead Safety Renovation, Repair and Painting

Presented by: Environmental Safety Training Professionals, Ltd.

Friday, April 30 • 8:00 a.m.–5:00 p.m.

NCCA Members: \$250.00 Lunch Included

Non-Members: \$275.00 Lunch Included

FEDERAL LAW REQUIRES CONTRACTORS THAT DISTURB LEAD-BASED PAINT IN HOMES, CHILD CARE FACILITIES AND SCHOOLS, BUILT BEFORE 1978 TO BE CERTIFIED AND FOLLOW SPECIFIC WORK PRACTICES TO PREVENT LEAD CONTAMINATION.

With Heavy Fines, it is important to get trained!

DO YOU KNOW

That means YOU!

EPA Requirements

Common renovation activities like sanding, cutting, and demolition can create hazardous lead dust and chips by disturbing lead-based paint, which can be harmful to adults and children.

The requirements apply to **all contractors** who disturb lead-based paint in a six-square-foot area or greater indoors.

- All companies are required to have at least one person certified

BULLDOZER SAFE OPERATION

INTRODUCTION

A bulldozer is an industrial tractor with a wide upright blade at the front used for clearing earth or other material. With their enormous size, these machines can easily cause serious injury or death if not operated properly.

SAFE WORK PRACTICES

General safety guidelines for operating bulldozers are as follows:

- A safety inspection should be conducted on each machine before use. This includes backup signals, seat belt condition, lever function, etc.
- Do not operate a bulldozer unless you have been trained and authorized by your employer to do so.
- Before starting the bulldozer fasten your seatbelt, and check that the path is clear of workers, objects, and other obstructions.
- When the bulldozer is in need of repair, workers must follow proper lockout/tagout procedures.
- A system of traffic controls must be used when operating the bulldozer on public roads or in areas close to, or obstructing vehicle traffic.
- Be watchful for overhead power lines and any ditches or trenches when operating the bulldozer.
- As with any industrial truck, shut off the engine whenever refueling.
- Never mount or dismount where hand and foot holds are not provided.
- Never climb or walk on the tracks.
- Blades and attachments must be kept close to the ground while moving.
- When parking, the bulldozer should either be on level ground or blocked to prevent rolling. Set the parking brake, lower all attachments to the ground, and turn the machine off before exiting for any reason!

BULLDOZER SAFE OPERATION

OPERATING ON A SLOPE

Bulldozers are not made to operate on slopes greater than 45 degrees. If you must operate on a slope, you should measure it beforehand and check your operator's manual for their recommendations for operation on steep slopes. In addition:

- Walk the slope before grading it to check for irregularities, erosion, or rocks that could negatively affect the bulldozer's traction.
- Only operate the machine up and down the sloped terrain rather than across.

CONCLUSION

Becoming familiar with the bulldozer you will be operating and applying all safety training you have received from your employer will help keep you and others safe.
